Bon Jour

Hola

At Stein Study, we provide Irish school students with the invaluable opportunity to study a foreign language abroad. Studying a language in the native country it is spoken in, is hugely beneficial and can greatly enhance language skills in a short period of time. With our courses, students not only benefit from improving their foreign language skills, they also gain unforgettable life learning experiences, meet people from around the world and learn how to be independent.

Our courses are provided by a selection of outstanding language schools in France, Germany and Spain. Each school is carefully chosen based on its quality of teaching, suitability for teenagers and its location. There is an exciting choice of 12 locations; from small rural towns and historical cities, to bustling cultural cities and sunny resorts by the sea. We believe that the location of the course is just as important as the course itself and we want our students to have a fun and rewarding experience.

Our packages include the foreign language course as well as full or half board accommodation, activity programmes, mentoring and supervision. Each course is different, so once you have identified which course type is relevant to you in our summary of courses, read the individual course pages to establish which specific course and location is most suitable for your requirements.

We look forward to welcoming you on one of our Stein Study language courses in 2020-2021.
